

Building Maintenance Technician

Your Future, Your Home

Careers in
Construction

Perform work involving the skills of two or more maintenance/craft occupations to reinforce building structures and repairs. General maintenance and repair workers often carry out a variety of tasks in a single day's work. This is a great fit if you enjoy a diverse work environment that varies between indoor and outdoor locations. Duties may involve pipe fitting; HVAC maintenance; insulating; carpentry; electrical; and repairing buildings, floors, or stairs. If you are a jack of all trades, then this is the career for you.

Find your home with a career in the home building industry and help others achieve the dream of owning a home.
