

Construction Management

Your Future, Your Home

Careers in
Construction

Construction managers plan, coordinate, budget, and supervise construction projects from inception to completion. They must meet specific hiring needs that combine critical thinking, technical skills, academic knowledge and leadership to:

- **Oversee and allocate resources**
- **Monitor compliance with building and safety codes, and other regulations**
- **Interpret and explain contracts and technical information to other professionals**
- **Report work progress and budget matters to clients**
- **Prepare cost estimates, budgets, and work timetables**
- **Select, schedule, and coordinate subcontractor activities**
