

# THE NATIONAL GREEN BUILDING STANDARD

Below are current statistics on how many homes across the US are currently certified under the National Green Building Standard.

## The Increasing Certification Levels of the NGBS

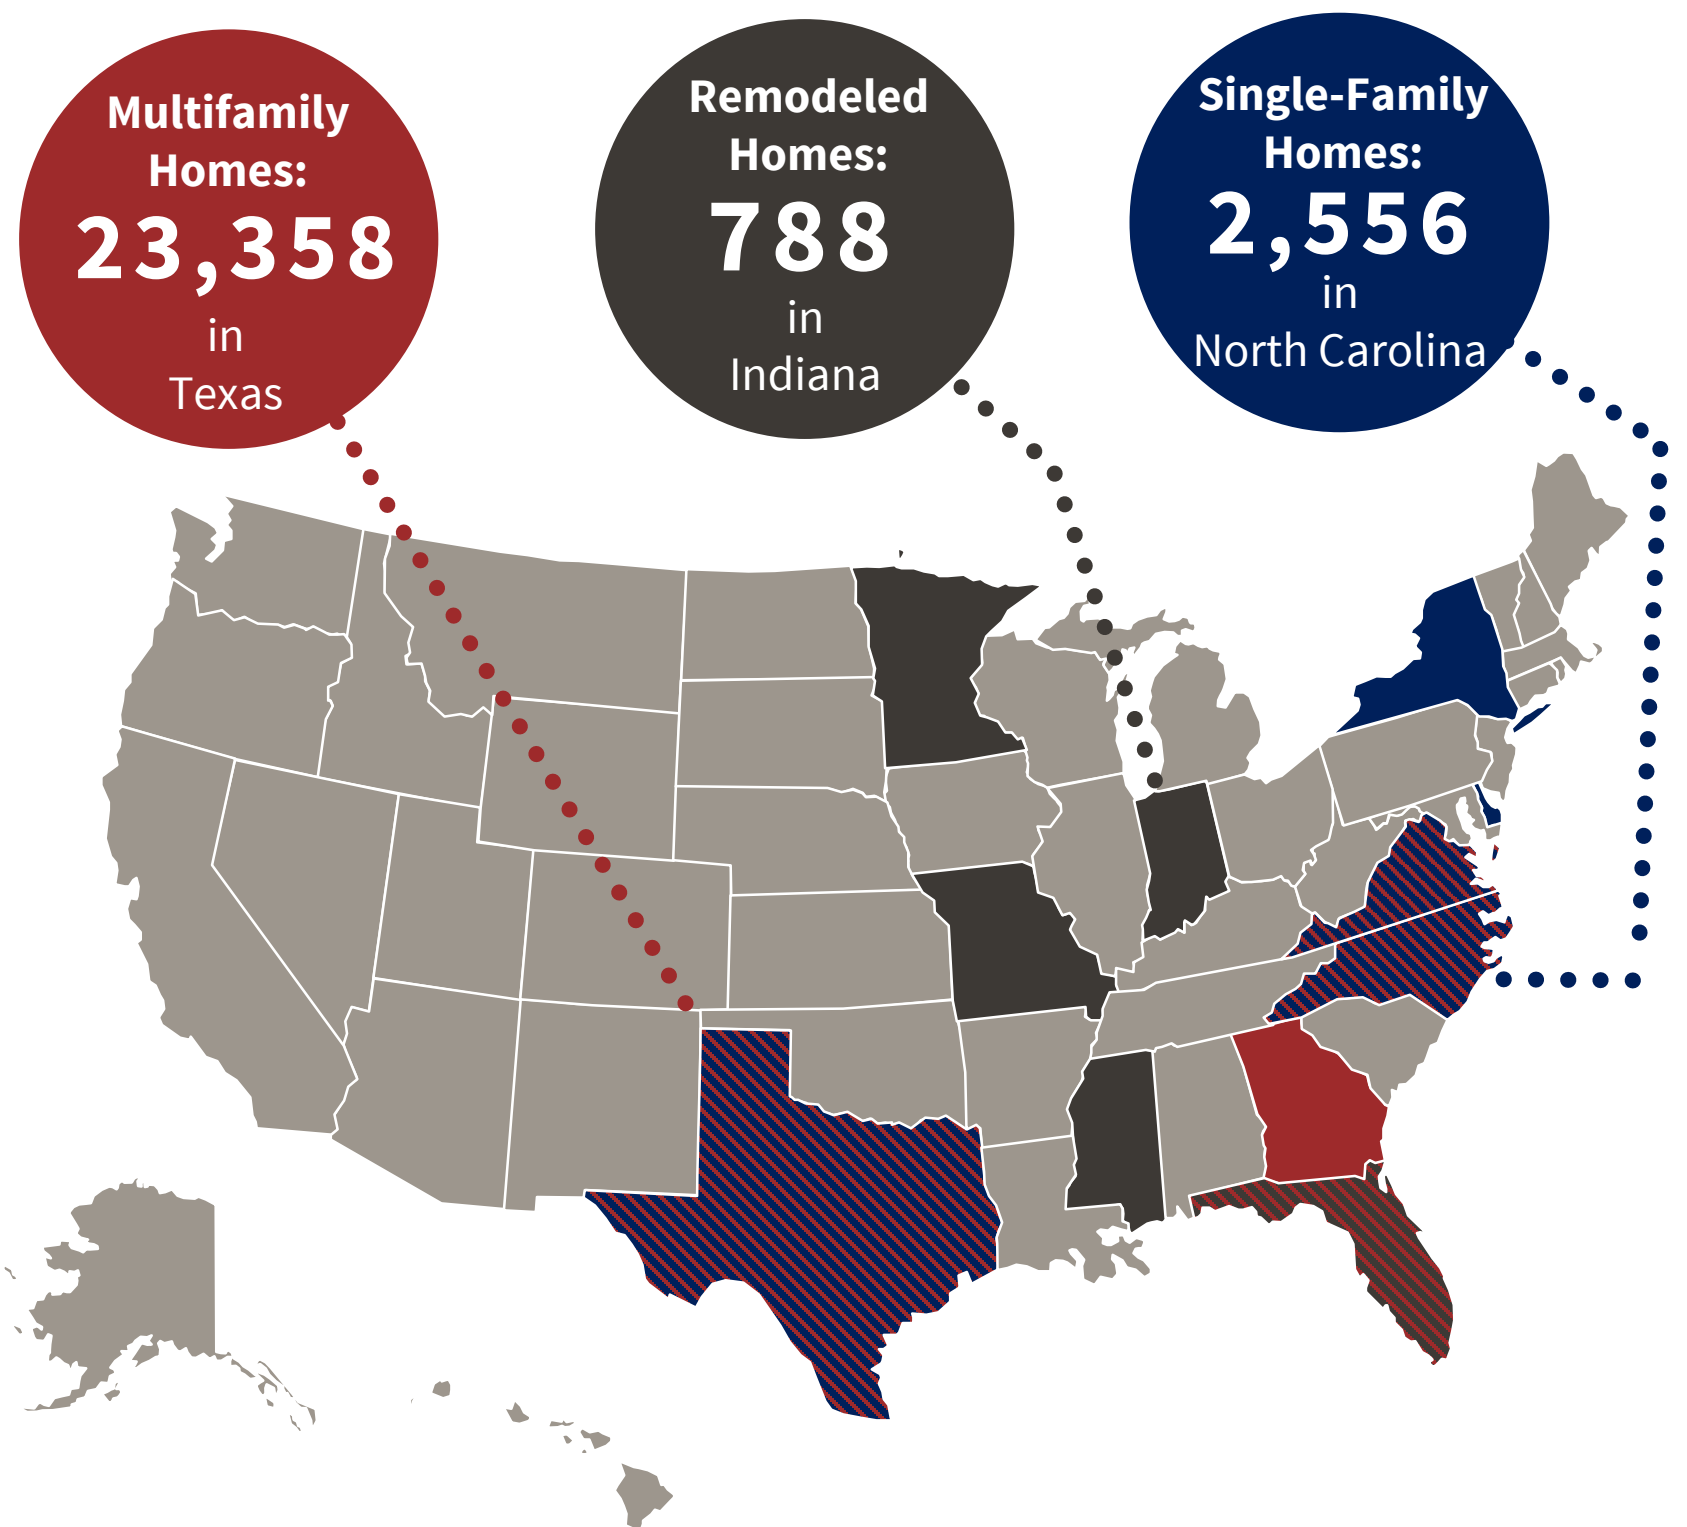

How has NGBS certification grown over the years? See the graph to the right to get a glimpse of the rise of certified homes and apartments. This does not include an additional 70,000 homes currently in the certification process.

## Top 5 States

with the Most Single-Family, Multifamily, and Remodeled Homes Certified to the NGBS

## 47 States

NGBS Certified Homes can be found in 47 states across the country. The only three states that currently do not have any certified homes are Alaska, Oregon, and Wyoming. However, projects are already pursuing certification in Oregon and are projected to be certified in the coming year.
