During congestion, customers on most plans using >50GB/mo. may notice reduced speeds until next bill cycle due to data prioritization. Video typically streams on smartphone/tablet in SD quality (480p). **5G:** Capable device required; coverage not available in some areas. Some uses may require certain plan or feature; see T-Mobile.com. **Fastest:** Based on median, overall combined 5G speeds according to analysis by Ookla® of Speedtest Intelligence® data 5G download speeds for Q1 2022. Ookla trademarks used under license and reprinted with permission. **Microsoft 365:** contact us to activate two M365 Business Basic licenses (\$6/mo. per license value) while you maintain 2+ lines on Advanced; contact us to activate one M365 Business Basic license (\$6/mo. value) for first line and one M365 Business Standard license (\$15/mo. value) for 2+ lines on Ultimate. **Business Unlimited Plans:** Capable device required for some features. Not combinable with certain offers. Switching plans may cause you to lose current plan/feature benefits; ask a rep for details. Max 6 lines. Plan not available for hotspots and some other data-first devices. **Unlimited talk & text** features for direct communications between 2 people; others (e.g., conference & chat lines, etc.) may cost extra. Some messages, including those over 1MB, use data and may be unavailable internationally. Unlimited U.S. roaming. Unlimited high-speed data is US only. In Canada/Mexico, data is unlimited at up to 128kbps speeds for Select; Advanced and Ultimate have up to 5GB of high-speed data and then unlimited at 256kbps. Not available for hotspots and some other data-first devices. **Tethering:** 5GB high-speed data for Select (50GB for Advanced and 100GB for Ultimate) then unlimited on our network at max 3G speeds. For the small fraction of customers using >50GB/mo., primary data usage must be on smartphone or tablet. Smartphone/tablet usage is prioritized over Mobile Hotspot (tethering) usage, which may result in higher speeds for data used on smartphones and tablets. **Coverage** not available in some areas; we are not responsible for our partners' networks. **Secure Wi-Fi:** capable device, app download, and subscription (included with Advanced/Ultimate; additional \$1.99/line/mo. on Select) required. **Network Management:** Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. During congestion, heavy data users (>50GB/mo. for most plans) and customers choosing lower-prioritized plans may notice lower speeds than other customers. On-device usage is prioritized over tethering usage, which may result in higher speeds for data used on device. See T-Mobile.com/OpenInternet for details. See 5G device, coverage, access details, & **Terms and Conditions (including arbitration provision)** at www.T-Mobile.com.
