- Be Spotlighted in an NAHB Global eNews Report
- Participate in the LinkedIn NAHB Global Members Forum
- Upgrade Your Listing in the Builders & Service Provider Directory
- Submit an entry into the 2020 Global Innovation Award Program

Peer to Peer Insights

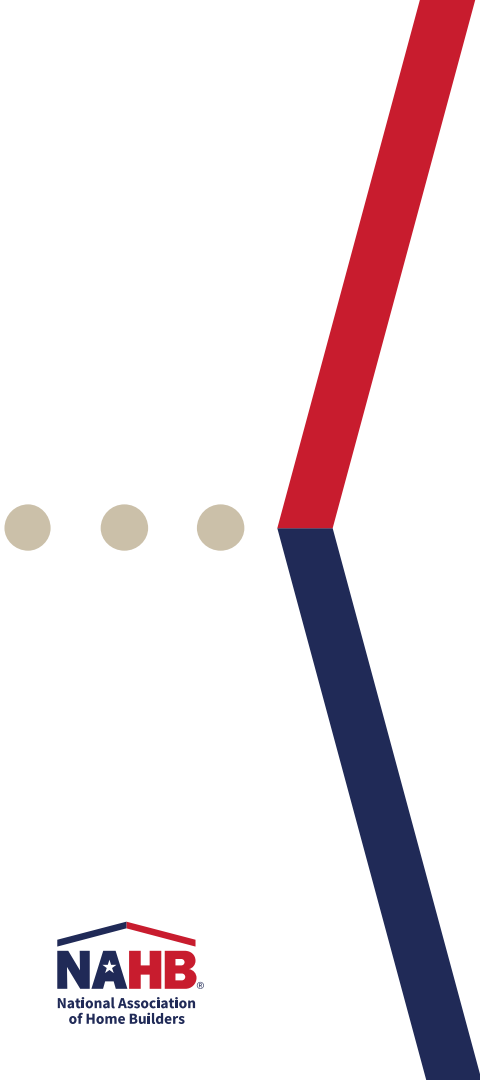

' I am a Canadian and based in Toronto, so the cross-border business is a mainstay of my company's work. NAHB Global Membership provides me with access to networking, education, advice, assistance and discounts on events & services. NAHB is not just an organization – it's an association made up of hard working individuals that are there to assist me with my day to day business'.

~ Marshall Leslie- Owner, M. Leslie Inc. & Global Opportunities Board Member (Canada)

'It has always been a challenge introducing new technology to the Home Building industry. Our NAHB membership and their GIA Program have been invaluable helping us reach out to their members. I see programs like these as huge benefits that NAHB provides not just to companies like ours but to their members as well."

~ Alex Levy – Founder & President, Hillside Software (United Kingdom and U.S.)

'I'm an NAHB Global Member from Australia, and I wanted to get more involved in NAHB. I joined an NAHB 20Club: a unique networking and business leadership program that brings together builders from non-competing markets to share their accounting books, business plans and strategies for success. The access to other builders and their knowledge and insight has been invaluable to me as a business owner. That access has results in much success for me. Since joining, my business has more than doubled its annual closings. In addition, I have been able to lean on my fellow members for their insight on two successful builder apps I developed.

*~ David Campbell – President, David Campbell Building Pty Ltd.
